

# Australian Small and Mid-Cap Fund

## Investment Strategy

The Fund generally gains its investment exposure by directly or indirectly investing in a portfolio of Small-Cap and Mid-Cap companies listed, or expected to be listed, on the Australian Securities Exchange. Australian Small and Mid-Cap companies are generally those companies that are outside the top 20 companies on the Australian Securities Exchange as determined by market capitalisation.

The Fund provides exposure to a multi-manager Australian small and mid-cap strategy. Specialised Private Capital does not directly manage the Fund's assets. The Fund's assets are managed directly or indirectly through pooled fund(s) and/or in mandates (Underlying Strategies) by the selected external managers (Underlying Investment Managers).

The Fund aims to provide investors with a total investment return (after fees) that outperforms the S&P/ASX 300 ex S&P ASX 20 TR Index (Benchmark), over periods of seven years or longer.
